CAREGIVER DIRECTORY

The Schmieding Caregiver Directory is a directory in which our program's graduates may choose to be listed. Graduates listed are required to complete 12 hours of SHCTP's ongoing education per year to remain on the directory. The published list includes the graduate's name, contact information, level of training, & availability to work. The directory is distributed throughout the community to hospitals, rehabilitation facilities, assisted living organizations, & various individuals by request. Also included is a description of the qualifications & how to determine a person's best suited qualifications, a telephone interview guide, and a personal interview guide to assist in the process of finding a Caregiver.
